Opportunity to Object to the Draft Record of Decision for the Snowmass Multi-Season Recreation Projects Final Environmental Impact Statement

The Aspen-Sopris District of the White River National Forest has released the Snowmass Multi-Season Recreation Projects Final Environmental Impact Statement (FEIS). The FEIS discusses the Purpose and Need for the Proposed Action, the process used to develop alternatives, potential direct, indirect, and cumulative impacts of implementing the No Action Alternative (Alternative 1), the Proposed Action (Alternative 2), and Alternative 3, as well as management requirements and project design features.

Based on the analysis presented in the FEIS, the draft Record of Decision (ROD) identifies the Forest Supervisor's Selected Alternative as a combination of projects included in Alternative 2 and Alternative 3. The Selected Alternative includes the following elements: mountain biking and hiking trails located primarily in the Elk Camp and lower Alpine Springs areas; a mountain coaster in the Elk Camp area; a zip line canopy tour starting in the Elk Camp Meadows area; a zip line to begin under the Elk Camp Gondola across the Funnel ski trail; a ropes challenge course in the vicinity of Elk Camp Meadows; a climbing wall adjacent to the Elk Camp Restaurant complex; and multi-purpose gathering sites around the Elk Camp area. All proposed projects would be located within the existing Snowmass Special Use Permit area. The specific elements of the Selected Alternative are described in detail in the draft ROD.

The FEIS and draft ROD are available for review/download on the White River National Forest website at <https://www.fs.usda.gov/project/?project=49057>. Hardcopies may be reviewed at the Forest Supervisor's office in Glenwood Springs and the Aspen-
